## **UNION COUNTY: Key Data Points**

- The county observes a slightly lower total birth rate than the state of Indiana overall, 10.2 versus 13.9 respectively
- Union county did not experience any infant deaths in 2003
- The percentage of women breastfeeding on discharge in the county is more than 40% lower than the state average, 20.3% versus 63.2% respectively.
- Union county witnessed 2 motor vehicle accident deaths

**Note:** All figures relate to 2003 data from the Indiana State Department of Health, unless otherwise specified
